

The allegations of sexual misconduct & the resulting legal settlements have stained the reputation of our Union. Mickey calls himself this lead negotiator and says you need him. Well, over the past decade and a half, we have lost our union standards and have not moved forward. We have suffered concessions every contract negotiations allowing cents above MINIMUM WAGE to become the new union standard while Mickey continues to raise union dues. We have worked hard for our wages and standards, we cannot afford to continue this way.

It's Time to Take Back our Union & demand the fair election for the right to choose our leadership.
